Forecast for Saturday 14 Oct 2023

Weather: Clear or bright spells and a few passing snow showers, falling as rain or sleet below 400m. The showers mostly across the Aberdeenshire hills with long dry and sunny spells for the Perthshire and Angus hills. Windy and very cold conditions.

Chance of cloud-free hill tops above 800m: 70%. Summits will regularly clear between showers especially in the south.

Low Cloud and visibility: Long spells of excellent visibility between showers, especially across Perthshire and Angus. Briefly poor as showers move through with cloud descending to 600m, mainly in the northwest.

Met Office Aberdeen Meteorologist's View

Advice from our partners at Mountaineering Scotland: *Saturday will bring the first taste of full winter weather in the hills this autumn with strong winds, severe wind chill and snow showers in the forecast. Please ensure you have the correct clothing, equipment and skills required and choose a route appropriate for the conditions. Remember to be flexible with plans and consider enjoying a low-level route if the conditions up high look too much.*

Forecast for Sunday 15 Oct 2023

Weather: Showers in the north, with falling snow above 400m at first but rising to 900m by the afternoon as slightly milder air arrives from the west. Mainly dry with longer sunny spells in the south, then also in the north in the afternoon.

Maximum wind: Northwesterly 25-30mph gusts 40mph, slowly easing.

Chance of cloud-free hill tops above 800m: 40% becoming 70% in afternoon.

Low Cloud and visibility: Occasional cloud above 700m in the morning, mainly in the north, but becoming more scattered and lifting in the afternoon. Mainly good visibility, occasionally poor in any wintry showers in the morning.

Temperature: **Glens:** Plus 2C rising to 9C.
At 800m: Minus 3C rising to Plus 1C.
Freezing level: 400m rising to 900m.
